SUSTAINABILITY

As Queensland's top textile supplier, we are committed to sustainability by integrating low-carbon sourcing and innovative biodegradable technologies.

We partner with eco-friendly mills and have made strides in reducing plastic waste by using corn-starch packaging and recyclable paper cartons.

Moving forward, we will continue enhancing our sustainable practices and collaborating with reputable suppliers to protect Australia's environment while maintaining product quality.

We are dedicated to the principle of sustainability, as defined by the United Nations, and aim to lead in sustainable textile solutions
